in my test system, i have a video card that is not supported by Win98 and setup finds the INF file OK, but then setup asks for all the files the INF file refers to i know the location that the files will be in, but how do i include this info in the INF file so it can all be unattended? Thanks in advance.

So here's my wishlist: Mobile Intel 945GM Express chipset Intel Graphics Media Accelerator 950 Audio chipset ADI1981HD PremierSound High Definition Audio Intel PRO/Wireless 3945ABG 802.. And I am not that experienced in installing drivers, in my older computer I googled a driver for the chipset and installed it with no problems. [Videoget License Number Keygen For Mac](#)

However, now that I'm trying to do the same I have no success, the screen resolution (the first thing I'm trying to change) stays at 640x480.. Also, if you think I should write my questions/problems somewhere else, feel free to comment.. However, I only have a HP NX7400 which is relatively modern with no-existent Win98 support.. 11 a/b/g WLAN Sorry for not adding links but I guess those drivers don't exist for Win98, at least anything I've downloaded has not worked on my system.. This project was A few years back someone had created a driver pack for every graphics card so it could be installed on Windows 98. [b0d43de27c 2008 Word For Mac](#)
